Overview Google Nest Hub Smart Speaker & Display with ...

Meet the mighty Google Nest Hub Smart Display & Speaker with Google Assistant. This compact speaker is easy to set and use. Simply plug this device and download the Google Home app on your mobile from the Google Play Store or App Store and you're set. This device comes with a built-in Chromecast and Google Assistant for hands-free help. The Google Nest Hub features a 17.78 cm (7-inch) LCD touch screen display. The speaker comes with two mic array far-field voice recognition microphone which allows you to be heard from any direction. The Google Nest Hub delivers excellent audio quality. Be it latest sports update, news update, the traffic condition, recipes, just ask your Google Assistant and get rich, visual answers about recipes, local businesses, sports and more. This device even lets you set a timer for baking or an alarm using just your voice. Its Voice Match feature recognizes the voice of every family member and helps Google Assistant provide everyone with their schedule, daily briefings, playlists and more. As you start your day and ask Google Assistant about your day, its My Day feature gives a brief of how your day would be including the weather, calendar, commute, reminders and news. It also reminds you of any important to-do task. Pair the Google Nest Hub with your phone or Bluetooth speaker to play songs from your playlist. If you have both, a Chromecast audio and a smart speaker, you'll be able to play

the same song in your house with the multi-room audio feature via Wi-Fi connectivity. It is even compatible with smart lights and plugs and allows you to switch on the lights before getting out of bed or dim the lights by using your voice. This device can also be used as a digital photo frame. You can simply ask, "Ok Google, show photos from the last vacation". Also, as you take photos of loved ones, Nest Hub automatically selects the best ones and shows them on your display. It even automatically detects and matches the light and colour in any room so that pictures blend and is visible. After a boring, long day at work, just ask Google to tell you a joke or fascinating trivia which will quickly pep up your mood.

Description Google Nest Hub Smart Speaker & Display with ...

The Google Nest Hub brings the future to your home. It's your personal digital assistant, but now with a display. This added feature brings a lot to the table, whether it's in your kitchen, bedroom or living room. Ask questions and it will answer. You can find out your next appointments, set reminders, details on the stock market or what the traffic is like to work. There's no more of that annoying typing in search keywords on your phone. Just speak and the Google Nest Hub will answer.

It has a touchscreen so if you need to, you can use it like a tablet. What's more, it acts like a photo frame, so you can browse through some of the best photos on the web, or your Google Photos stream. You can simply ask it to show you photos from your last vacation, or play videos off YouTube. The Google Nest Hub looks just right in every room, in every setting. The screen colours and brightness adapt to the time of day, and where you are so you see a pleasant, soothing image.

The Google Nest Hub is more than just a digital assistant, it's a remote control for your smart home. You can tell it what you want to play on your Chromecast, which lights to turn on, check the security camera and even play content from a range of media services such as JioSaavn, Gaana, Spotify and many others!

For the price, it's a photo frame, a personal assistant, a smart home controller and a media player, all in one! Why wouldn't you want one?

FROM THE MANUFACTURER

Bring home the all new Google Nest Hub. It comes with built-in Google Assistant and Voice Match, allows you to access your images on Google Photos, watch videos on YouTube, access your personalised schedules, daily commute reminders and more. You can also use this Google Nest Hub to connect and control compatible smart devices in your home like smart light and smart TVs among others.

See any picture, just by asking

Just say "Ok Google, show my pictures from Hawaii," and watch them appear.
