

2

Product Specifications Media Oil
Model Name/Number LIQZP-LEB-SN-NP-503L4/A 11
Brand Atos
Usage/Application Industrial
Valve Size 4.5inch
Material Stainless Steel
Pressure High Pressure
Structure Valve

84 81 8090

Temperature Of Media Medium Temperature
Product Description
LIQZO-LEB,

LIQZP-LEB LIQZO-LES,

LIQZP-LES

Servoproportional 3-way cartridge valve specifically designed for high speed closed loop controls. They are equipped with two LVDT position transducers for best dynamics in directional controls and not compensated flow regulations. The cartridge execution for blocks installation grants high flow capabilities and minimized pressure drops. The integral digital electronic driver performs the valve's hydraulic regulation according to the reference signal and assures valve-to-valve interchangeability thanks to the factory presetting. Servo proportional cartridges are available in LEB basic execution with analog reference signals and USB port for software functional parameters setting or in LES full execution which includes also optional alternated P/Q controls and fieldbus interfaces for functional
